

BP service stations

BP supplies fuel to approximately 1,400 BP-branded service stations throughout Australia. Of these sites, BP owns and controls 334, and its agents operate a further 35. At the remaining sites (approximately 1031), prices are set independently by third-party site operators (with the exception of 33 sites where BP has an agency arrangement in relation to diesel only).

The following tables identify the location of these sites:

- **Table 1:** 334 BP owned and controlled service stations
- **Table 2:** 35 sites operated by BP's agents.
- **Table 3:** 33 sites where BP sets the price of diesel only.
- **Table 4:** 23 BP development sites.
